Snow-Hiking & Fat Bike Tour in Owani Onsen

Beginner course

Departs Jan 15th

We have prepared a course that is perfect for winter at "Owani Onsen", in Aomori Pref. Firstly, you will experience Ajarayama Snow Hike, which is the only winter program certified as a health tourism course in Japan. Since ancient times, "Ajarayama" has been a mountain of worship, but now even beginners can easily enjoy hiking in the snow. The snowy landscape woven by nature will heal your heart and soul. And when you reach the top of the mountain, visit Agara Daigongen temple. From the summit, you can see Mt. Iwaki, Tsugaru Fuji, the Tsugaru Plain, and the Hakkoda Mountain Range in the distance.

The next day, we will move to Hirosaki city and experience a snow cycling tour around the castle town. Enjoy traditional streetscapes such as hedges and bonsai in samurai residences and cedar trees in the temple district while cycling. In this tour you can enjoy going around the back alleys and small paths unique to cycling. There are few ups and downs, and the course is about 8KM long, so even beginners can enjoy this adventure.

Why not enjoy the winter of Owani and Hirosaki with us?

Hachimantai Snow Monsters CAT & Snow-Shoe Tour

Hachimantai boasts the largest area of *Todomatsu* pine trees that get covered in rime during winter, creating the spectacular Snow Monsters. Take a snowshoe tour through the mysterious world brought about by the harsh winter environment! After climbing partway up the mountain via the CAT, we will continue to Hachimantai Mt summit with snowshoes. You can feel a sense of unity with the nature as you hike through this spectacular winter wonderland. The exhilarating feeling of hiking through the trees and walking with a floating feeling on snow is a unique quality of snowshoes!

Let's enjoy the power and beauty nature creates only in winter in Tohoku.
